Lifetime Limited Warranty

Green Bay Decking, LLC (hereinafter “Manufacturer”) warrants that its GeoDeck™, TerrainDeck™, I.Dekk™, I.Dekk Terrain™ and DuxxBak™ products are manufactured from recovered cellulose (Biodac and rice hulls) and high density polyethylene, and are free of manufacturer’s defects, will not splinter, split, or delaminate, suffer structural damage from termites, rot, mildew, fungal decay, or mold when properly installed and maintained. Mildew or mold may form on the surface of your deck as a result of environmental pollution and debris. Such surface contamination will not harm your deck and can be removed by occasional cleaning with mild household cleaners or commercial deck cleaning products using a nylon brush. Always test clean a small area before proceeding. Additional cleaning and maintenance instruction can be found at www.GreenBayDecking.com.

GeoDeck™, TerrainDeck™, I.Dekk™, I.Dekk Terrain™ and DuxxBak™ are designed to resist the effects of exposure to the sun and environmental elements and will provide many years of excellent service. However, like all materials, GeoDeck™, TerrainDeck™, I.Dekk™, I.Dekk Terrain™ and DuxxBak™ will be subject to some color change when exposed to the sun’s ultraviolet rays. GeoDeck™, TerrainDeck™, I.Dekk™, I.Dekk Terrain™ and DuxxBak™ are manufactured with a lubricating material that will weather away within the first four months, fully revealing the intended color of the deck. Significant color fade is hereby defined as a change in color that is greater than five Delta E (CIE L*a*B*) units as defined by ASTM D2244 for the four basic Green Bay Decking colors. Significant color fade for the TerrainDeck™ and I.Dekk Terrain™ colors is defined as color change that continues beyond the first four months of initial exposure to the sun’s ultraviolet rays. It will be the responsibility of the owner to provide the original invoice and documented proof of the degree of color change.
