POLICIES & PROCEDURES

General Policy Statement

Wellborn Forest conducts business in a fair and equitable manner toward maintaining customer satisfaction.

Credit Management

A signed and complete credit application must be received and approved to establish an account and to place orders for Americana Capital Series (CS). All credit references are checked and a credit bureau investigation is completed to determine the credit worthiness of the company and/or principals. If insufficient credit history or incomplete information exists, additional references, financial statements or other pertinent information may be requested.

Billing terms will be established once credit is approved. Violation of the established terms may result in a change to the terms or a credit hold. Quick pay 2% discounts are applied to purchased items only excluding freight and taxes.

Orders submitted are subject to review by the credit manager. Orders will be withheld from customers with past due accounts or balances in excess of established credit limits at our discretion. The credit manager will release orders when account payment issues are resolved. Production will be based on order release, not order placement.

We respectfully request our customers refrain from making unapproved payment deductions from invoices for damaged, defective or shorted items. Reconciliation of your account may result in your account being placed on credit hold if you make deductions. Discuss any adjustments to your account with your sales representative.

WFex

The WFex program is for customers requesting shelf items.

- Orders may be submitted daily by 11:00 AM CST
 - WFex must be checked on the order form. No order will be entered WFex without the WFex box marked, no matter how small the order.
 - A 20% upcharge will apply to non-warranty orders
 - Orders entered as WFex will be available for shipment in 4 business days (for non purchased items)
 - Freight charged minimum \$80, LTL carrier rate or UPS rate
- Limited to parts ONLY

The customer must designate UPS, LTL carrier or next available WF Truck on the order. If the customer does not designate shipping method, the best method of shipping will be determined.

Delivery

The transportation department notifies customers via fax/email the week prior to delivery. Delivery will be made either morning or afternoon. Contact transportation department (ext. 337) for delivery information if you have not received delivery notification. ETA available to view on www.mywfpdata.com. Specific delivery times cannot be arranged, however, fleet drivers are to contact customers 24 hours prior to delivery.

Wellborn Forest delivers only to the customer's place of business. Job site deliveries are prohibited by the size of trailers and liability concerns.

Wellborn Forest drivers will assist in tailgating the product. The dealer must furnish personnel to unload and check off the shipment.

Customers will be notified in the event of delivery delays resulting from mechanical breakdowns, production delays and other circumstances beyond our control.

Note: Requests to delay shipments from the acknowledged delivery date may incur storage fees. Customer Pickup items will be invoiced once produced and a storage fee may be applied if left at the WFP location for more than 1 week.

Freight

Truckload

***All deliveries are sold f.o.b. factory**

Contract carriers may be utilized for truckload deliveries. Truckload freight rates may be obtained by contacting the transportation department at Wellborn Forest **(ext. 337)**.

- Maximum Cubic Feet Per Truckload
 - 48' Trailer - 2700 cubic feet
 - 53' Trailer - 3200 cubic feet

Once loaded, truckload shipments held at the plant by the customer for delivery will incur a \$100.00 per day demurrage fee from the date the order is ready to ship.

Customers requesting expedited shipment (overnight or second day delivery) of replacement item(s) will be responsible for freight charges. These charges will be invoiced to the customer.

Cycle Trucks (Kitchens)

Product shipped on a Cycle truck is sold at the factory cost multiplier and freight charges are calculated at a per cabinet freight rate, based on the ship to location, incurred at invoicing. **Fuel surcharge may be applicable based on percentage of freight cost.**

Cabinets are charged the per cabinet rate, not accessories, moldings, etc. The per cabinet freight rate may be obtained through account services or your sales representative.

A minimum freight charge of \$80.00 will apply to shipments of less than five cabinets.

Orders loaded on the cycle truck and held for shipment by the customer or credit department will incur a **\$150.00 redelivery charge**.

UPS Shipments

All UPS shipments will be charged freight plus a \$10 handling fee.

Cabinets and all cabinet parts exceeding 70 lbs., 108" in length, or 165" in size combining length and girth cannot be shipped UPS.

POLICIES & PROCEDURES

Three Year Limited Warranty

Warranty claims are different than Damaged or Defective Goods claims. Warranty claims are made after the product is installed. Refer to Americana Capital Series Three Year Limited Warranty for complete warranty details. If you are making a Warranty Claim, check and fill out the Warranty Service Request box on the Americana CS Order form. Be sure to complete all information on the order form and fax it to account services. This order will be processed to produce on the next date of order placement and ship on the next available Wellborn Forest truck, LTL carrier or UPS.

Warranty orders may require field inspection and a signed authorization from our sales representative. All Warranty Service Request orders will be invoiced at the standard cost plus freight.

NOTE: A credit will not be issued until a warranty order has been invoiced. We are crediting the original, not the replacement. Disposition of the defective product may include returning it to Wellborn Forest. **If return of the item is requested, see Return Material Authorization (RMA) policy.**

Damage

If a product has been determined damaged beyond use while unloading, or with visible damage at the time of unloading use the Americana CS Order Form to submit orders for product. A "Damage Replacement" check box is available to you to order replacement items. Please provide the original order number in the field indicated. Product noted on the BOL/Shipper and ordered under these circumstances will be shipped at no charge. **If this information is not provided at time order is placed, items will be charged and freight assessed.**

If only the door is damaged, order only the door. If only the box is damaged, order the box only. If a component part will remedy the damage (i.e. drawer, drawer guide, hinge or shelves) order the necessary component. This will greatly speed the replacement process.

All replacements for damage, including parts, reported within the 30 days of invoicing will be shipped at no charge. We will determine the best method to ship the replacement item(s), including the preferred Cycle Truck.

Customers requesting expedited shipment (overnight or second day delivery) of replacement items will be responsible for freight charges. These charges will be invoiced to the customer. Note the damage on the Bill of Lading (BOL/Shipper) and obtain the driver's signature and contact account services immediately to reorder the damaged item(s).

Refer to the appropriate type carrier below to determine disposition of the damaged item. If delivered by:

- Wellborn Forest Company Owned Truck
 - return the item on the truck
- Contract Carrier Independent Carrier
 - accept the item since the carrier is not returning
- Common Carrier
 - Wellborn Forest will not accept responsibility for damage to product shipped by common carrier when this method of shipment is chosen by the customer. We highly discourage this method of shipment.
- UPS
 - Contact UPS to file a claim. Original packaging must be available for inspection by a UPS representative.

Concealed Damage

Product(s) discovered to have sustained concealed damage will be replaced by Wellborn Forest at no additional charge if noted on order form at time order is placed.

The items must be reported to account services within 30 days from the date of delivery and held for inspection and final disposition by a Wellborn Forest Sales Representative.

Credit will not be issued if damage notification exceeds 30 days from the date of invoice. Please be advised that an invoice for the replacement item(s) may be generated if the item(s) is/are not available for inspection.

*All damage replacement items submitted within 30 days from the date of delivery will be produced on the next available Production date at no charge. Exceptions: Items not stocked in inventory.

Defective Materials

Doors

Doors that are warped 1/4" or less must be allowed to hang through two seasons (Ex. Spring to Summer) before a no charge replacement will be considered. Some doors may warp slightly after installation due to high or low humidity levels in the home. The door will usually return to a normal flat position after going through the seasonal change. Please ensure that the door is warped rather than the cabinet being racked or out of square.

Cabinets or Parts

Wellborn Forest will replace, at no charge, up to two cabinets or six doors per kitchen order that are deemed defective. Replacements above this level will be shipped out at a charge and a Return Materials Authorization number will be issued. If upon return, the product is determined to be defective a credit will be issued at that time.

Finish

Complaints concerning stain, or glaze finish must be inspected by a Wellborn Forest Account Representative. Wellborn Forest reserves the option of approving a field repair or returning the product to factory for repair or replacement. Exposure to smoke, water, or extreme sunlight may alter the original appearance. Slight variations in grain and color are not considered defects, as this is the natural character of wood. **Veneered panel doors are not guaranteed to match solid wood framing on the same door in either the raw or finished state. Veneers will absorb stain differently than solid wood. The mismatch of solid and veneers is not considered defective.**

Return Policy

Returns will be handled on a case-by-case basis. Contact account services when an RMA is considered necessary.

Note: The return policy pertains to defective, damaged, warranty, or Wellborn Forest administrative errors only. RMA does not include customer errors.

Items must be returned within 60 days of delivery. Items returned after 60 days will not receive credit. Issuance of RMA does not guarantee issuance of credit. **Returned products not found to agree with claim upon inspection may be returned to the customer. VP of Sales must approve return of items.**

POLICIES & PROCEDURES

Shortages

Wellborn Forest Truck or Contract Carrier

Note the shortage on the shipper and obtain the driver's signature. Fax the signed shipper with a list of the shortage(s) to account services immediately. Shortages will be produced to ship at no charge.

Shortages reported after 10 days will be charged.

We will determine the best method to ship the shorted item(s), including the preferred Cycle Truck. Customers requesting expedited shipment (overnight or second day delivery) of shorted item(s) will be responsible for freight charges. This charge will be invoiced to the customer.

Backorders

Backorders are parts that do not ship with the order and are indicated as such on the packing list. Backorders can and do occur, the result of various reasons including material out of stock and damage or defective parts occurring in process. Backorders are not invoiced until they are shipped, generally within five days of the original shipment.

Placing an Order

Wellborn Forest accepts orders 24 hours a day by fax or by email on the Americana CS order form or a computer design program (2020 Design & ProKitchen).

Account Services Emails & Faxes:

- cvickers@wellbornforest.com / 256.215.3303
- tdenney@wellbornforest.com / 256.215.3325

To Place an Order

1. Orders may be placed using order forms provided (free of charge), or a computer design program form of the following:
 - 2020 Design - fax or email the 2020 manufacturer codes quote report along with a Americana CS order form with specifics as a cover page (***When emailing, export report as a pdf or html file**).
 - Capital Series nomenclature must be used to avoid delays in processing.
2. Specify on each order the **finish, door style, species, hinge preference** (left, right or both), and **drawer box**. ***Please remember when placing an order, only one door style, finish and box style per order!**
3. Specify **shipping method** (truckload, cycle truck, or customer pickup), and **Customer Purchase Order #**.
4. Orders are entered for production on a first entered/first scheduled basis. Orders exceeding our daily capacity will be entered to produce on the next production schedule.

Cut-Off Time

Wellborn Forest ships within a ten (10) working day lead-time schedule. To ensure that your delivery arrives within the lead-time schedule, you may place your order **in advance** or on your **ZONE Cut-off Day**. The cut-off date is actually the **last day** that you may **make changes to** an order.

See chart below for ZONE Cut-off times.

	CUT-OFF DATE	CUT-OFF TIME	SUBMIT CHANGES TO ORDERS BY
ZONE A	Monday	8:00 am CST	Noon
ZONE B	Tuesday	8:00 am CST	Noon
ZONE C	Wednesday	8:00 am CST	Noon
ZONE D	Thursday	8:00 am CST	Noon
ZONE E	Friday	8:00 am CST	Noon

Deadline to submit orders for the next available production schedule is 8:00 am CST on your ZONE Cut-off Date. We recommend that you place your orders in advance to allow adequate time to review your confirmation.

Order Processing

Wellborn Forest enters orders using the nomenclature listed in this Price Catalog.

Itemized order acknowledgements are faxed by 10:00 am on your Cut-off Date. It is the customer's responsibility to check the itemized order confirmation for accuracy and notify account services immediately if a change is necessary. If you do not receive an acknowledgement by 10:00 am, consider that we did not receive the order and contact account services.

Change Order Procedures

Review of orders and changes must be submitted no later than (12:00pm) CST on your cut-off day or no later than 24 hours after receipt of confirmation, depending on which is earliest.

Please be aware that changes to orders between the time you send Wellborn Forest the order and receipt of itemized acknowledgement may result in duplication of order. Changes to orders should be made to the itemized order confirmation to avoid production delays. (If we do not hear from you, we will assume the acknowledgement correctly reflects your cabinet order.) All changes or corrections to orders must be faxed. Changes to orders such as: complete door style, wood species, or finish change will result in cancellation of the order and reorder for the next available production week.

Changes, including cancellations, made to orders after (12:00pm) CST on your Cut-off Date will be subject to a 25% (of the cost of the item) Change Order Processing fee. These changes will delay the production and shipment of the order until the next available production date for your zone.

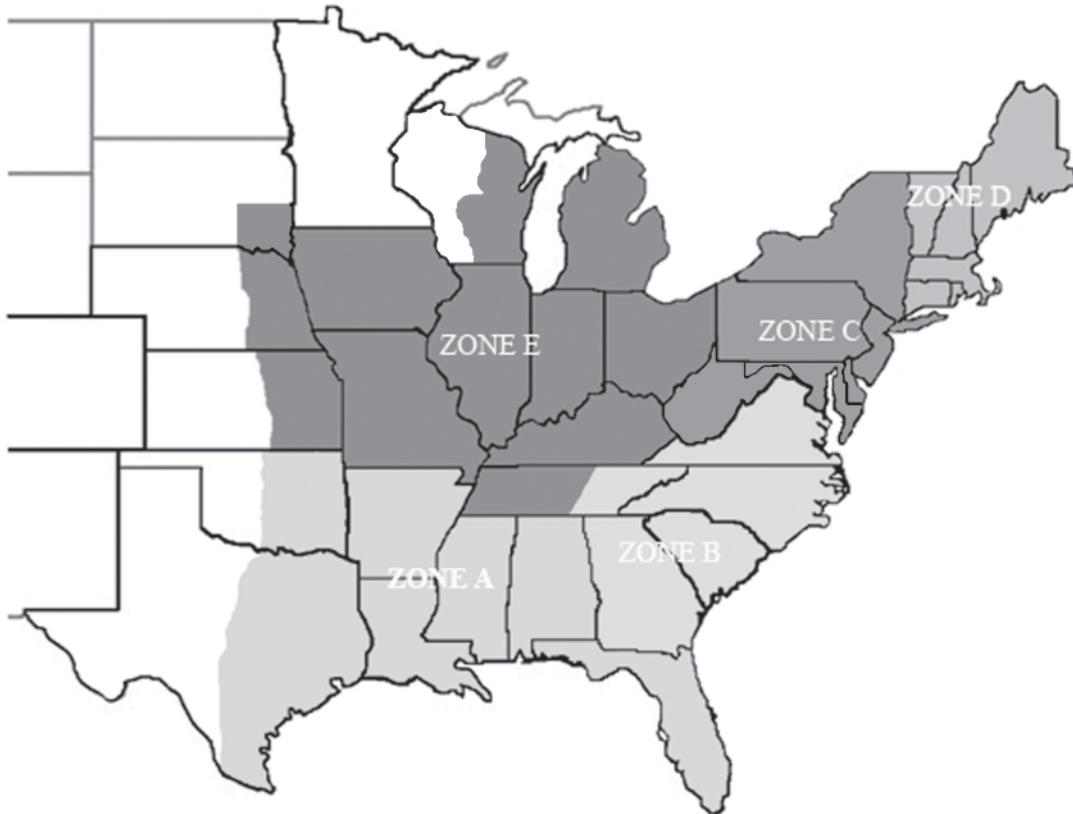

No changes will be allowed 48 hours after cut-off or on Custom Modification cabinets. All changes or corrections to orders must be faxed.

Cancellations and change requests will not be accepted for any orders received that are tagged WFex. Due to the efforts of our purchasing department to order and receive goods in a short amount of time, we find many times that these orders are already produced, packaged and due to be shipped when cancellation and change requests are made. As a result, we will no longer accept cancellations or changes on those orders.

POLICIES & PROCEDURES

What Zone are you in?

Delivery Zone Schedule

	CUT-OFF DATE	PRODUCTION DATE	DELIVERY START DATE

ZONE E	Tuesday	following Thursday	Monday

Pricing Discrepancy

Wellborn Forest strives to insure all pricing programs are identical to avoid pricing/quoting errors. If a pricing discrepancy exists between (20/20, ProKitchen, Price Quote) and the Price Book, use the current year's price book as the rule unless otherwise informed. If you are in doubt of any pricing, contact your account services representative.

PRODUCT AWARENESS

The natural hardwoods and hardwood veneers used in Wellborn Forest cabinetry vary in color and grain pattern. Colors may vary from white, to red, to black, and even green, sometimes in the same door or drawer front. Some wood species such as maple have smooth even grain patterns, while oak has a more open and sometimes even wild grain variation. Some wood species display mineral streaks, worm tracks, small knots and pitch pockets. Some woods, particularly cherry and maple, are susceptible to light and the environment, causing the wood tone to mellow and darken over time. These variations are created by nature and are generally acknowledged as the beauty of wood and are not considered a manufacturing defect.

Cabinets And The Environment

By its very nature, wood moves to expand and contract as it absorbs and releases moisture into the environment. As the wood absorbs moisture, the wood grain expands, and conversely, when the wood releases moisture the wood grain contracts or shrinks. The wood will expand and contract disproportionately meaning in unequal directions. The resulting movements can emphasize joints on cabinet doors, drawer fronts and face frames to be more pronounced even though they are a finished product with stain, sealer coat, and top coat applied. Miter joints are more susceptible to open or gap as a result in humidity level fluctuations. In most cases, the wood product will return to normal position if not exposed to extremes of humidity for a prolonged period and maintained in a stable atmospheric environment. These changes are not considered a manufacturing defect.

Humid Environments

Humid environments contain a high amount of moisture in the air. Cabinets exposed to these high humidity levels will absorb excessive moisture and therefore expand or swell. This means that joints, scratches and other imperfections may become more pronounced and visible to the naked eye. If wood products are exposed to humid conditions for a prolonged period of time, they may not return to their normal condition once the atmospheric conditions become more stable.

Arid Environments

Arid or dry climates can also result in wood movement. The moisture in the wood product has been absorbed by the environment causing the wood to dry. Shrinkage of wood can cause joints to open and become more pronounced and magnify any scratches and other imperfections even though the product has a stain, sealer coat, and top coat applied. Wood products exposed to arid environments for a shortened period of time may regain moisture and return to their normal condition in the appropriate atmospheric conditions.

Climate Equilibrium

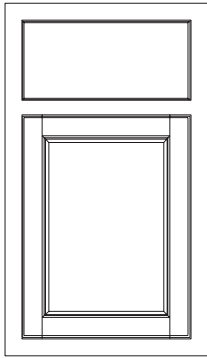

Proper steps can insure an appropriate climate for your Wellborn Forest cabinetry.

- Minimize exposure to sunlight, smoke, and household cleaners.
- Maintain the appropriate climate control systems within the home or storage areas to reduce the occurrence of moisture related issues. It is recommended to maintain the temperature in your home within a range of 60 - 90°F.
- Cabinetry should not be too close or directly facing air vents or radiant heat sources.
- Choose the appropriate wood species for your area. Remember solid wood is created from a single piece of wood. Engineered wood is made from several layers of wood and is designed to withstand higher levels of humidity.

Your cabinetry will perform and look beautiful for many years by following these suggestions to maintain a stable atmosphere. The warranty does not cover damage from exposure to extreme fluctuations in humidity levels or temperature or product concerns related to improper control of humidity or moisture levels.

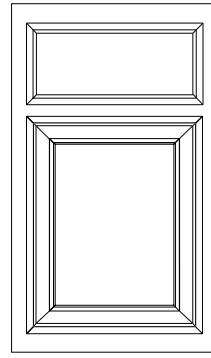

Group A

Concord Maple

- 1/2 inch overlay
- 2 inch solid maple stiles and rails; 3/4 inch thick
- 3/16 inch maple plywood panel
- Mortise & tenon construction
- Concealed hinge
- Solid maple drawer front matches door edge profile

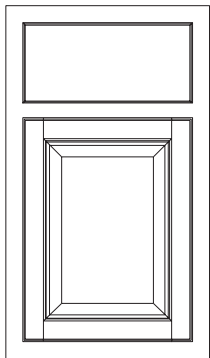

Franklin Maple

Lawrence Maple

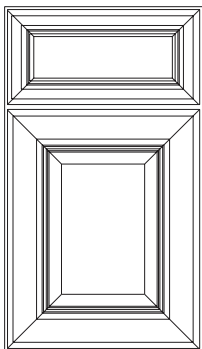

NEW

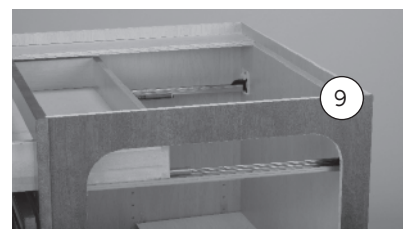

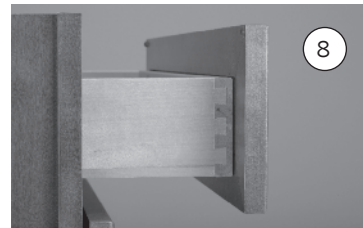

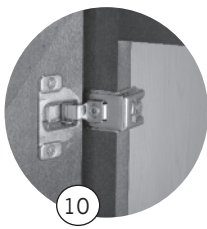

- 1 9/16 inch overlay
- 2 inch solid maple stiles and rails; 3/4 inch thick
- 3/16 inch maple plywood panel
- Mortise & tenon construction
- Reverse bevel edge profile with a two step profile
- Concealed hinge
- Solid maple drawer front matches door edge profile

Group E

Atlanta Raised Panel Maple

- 1 9/16 inch overlay
- 2 3/4 inch solid maple stiles and rails; 3/4 inch thick
- 7/16 inch veneer raised center panel
- Mitered corners
- Concealed hinge
- 5 piece drawer front with flat center panel

See page 11 for cabinet specifications

CABINET SPECIFICATIONS

① FACE FRAMES	3/4" x 1 3/4" kiln dried maple stiles & rails, joined with wood screws.
② END PANELS	1/2" hardwood veneer with UV clear coat interior. Exterior veneer matches face frame wood species and is finished to match when finished end is specified.
③ TOPS & BOTTOMS	1/2" hardwood veneer with UV clear coat interior.
④ I-BEAM RAILS	1/2" plywood dadoed, glued & stapled into face frame and end panels & then stapled to back panel.
⑤ SHELVES	Adjustable, 3/4" hardwood veneer with UV clear coat, front edge is maple edgebanded. Base cabinet shelves are 1/2 depth of cabinet.
⑥ BACKS	3/16" hardwood veneer with UV clear coat.
⑦ TOE SPACE	1/2" x 4 1/2" plywood on base cabinets.
⑧ DRAWER BOX	Full length, four-sided, 5/8" solid wood with 3/16" plywood bottom grooved into four sides. Dovetail joinery on four sides.
⑨ DRAWER GUIDES	Soft-close full access drawer guide: <ul style="list-style-type: none"> • 75 pound load capacity • Full-access – 7/8 extension, soft-closing feature • Strong, resilient tracks and precision steel ball bearings • Installed with plug-in, adjustable rear brackets for positive placement and stability. • Tool-free height adjustment • Made in the USA • Lifetime Warranty
⑩ HINGES	6-Way adjustable, concealed cup hinge, 110 degree opening. Lifetime Warranty.

Stains

Ginger: Mid-tone golden brown stain **NEW**

Hazelnut: Warm dark sepia brown stain **NEW**

Honey: Light golden brown stain that blends heartwood and sapwood

Java: A once applied dark brown to black stain

Nutmeg: Dark brown stain

Rose': Reddish brown stain

Paints - 10% Upcharge

Signed Finish Agreement Required

These color paint finishes are available without glazing. Paint finishes are applied on hardwood or hardwood veneer products. Due to our finishing process, some wear-through or sand-through may occur on the sharper edge profiles of doors and drawer fronts. This is not considered a manufacturing defect.

Please note that wood naturally expands and contracts with seasonal changes in temperature and humidity. As wood moves at joints, this movement will be more apparent with painted finishes than stained finishes and will look like a small fracture or seam at the joint. The joints on mitered door styles may be more noticeable than mortise & tenon construction. These characteristics are inherent and will not be considered defective.

For homeowners concerned about day-to-day mishaps in high activity kitchens or baths, Wellborn Forest Products does not recommend Paint finishes due to the finish application process.

Paints

Arctic: White painted finish

Champagne: Soft beige painted finish

Glazes - 20% Upcharge

Signed Finish Agreement Required

Refer to the Finish Availability Chart for door style and finish availability

Glazing is a finishing process where a base stain or paint is applied to the wood for consistent color coverage. A flood coat of glaze is then applied and hand-wiped to create hang-up of varying tones from light to dark in the detail areas (corners, door grooves, profiles, and woodgrains) of the door or drawer front. Glazing hang-up is uneven and inconsistent creating a unique look that mimics antique, old world finishes. **Certain doors and drawer fronts may not be conducive for glazing due to less detailing of the profiles.** A veneer center panel absorbs more of the glaze resulting in a slightly darker color than on the solid wood components of the door frame.

The amount of hang-up will vary by wood species, by door profile, by stain or paint and glaze color, and especially by how much glaze is removed from the product. The variation must be judged for its overall effect in the entire finished installation and not in one single door or cabinet. Again, this is a hand-wiped process and due to its lack of automation or standardization, the glazed finish will vary from piece to piece, door to door, cabinet to cabinet, and job to job.

Glazes

Chocolate: Dark brown glaze

Shadow: Black glaze

Upcharge for Paints & Glaze Finishes

Glazes and Paints Finishes

I understand that the variation in pattern and color visible in Glaze or Paint finished cabinetry is an element in the beauty of the wood and artistry, not a defect. As the cabinetry goes through the finish process, the color of each component is matched as closely as possible. Variations in the wood are emphasized in certain finishes, such as Glazes finishes. No attempt is made by craftsmen to tone down or cover up these color variations present in the wood.

I also understand that when medium or dark finishes are applied to maple, there is the potential for exaggerated light and dark effects, blotchiness and or mottling. Soft spots in the wood and end-grain surfaces will also accept these finishes, predictably darker.

For glaze finishes, since glaze detailing is hand applied then hand wiped off, glaze may hang-up or remain in any corners of the door or drawer profile. Because the glaze is an hand applied procedure, detailing can differ from piece to piece. Due to our finishing process, some wear-through or sand-through may occur on the sharper edge profiles of doors and drawer fronts. This is not considered a manufacturing defect. These potential variations are natural occurrences and are within the standards established by Wellborn Forest Products in their finishing process.

Veneered panel doors are not guaranteed to match solid wood framing on the same door in either the raw or finished state. Veneers will absorb more of the stain and glaze resulting in a slightly darker color than the solid wood components of the door frame. The mismatch of solid and veneers is not considered defective.

Wellborn Forest Products offers several types of painted finishes on cabinetry. Painted finishes are exceedingly different from the standard stained finish. Since normal movement is typical in wood products, certain climatic conditions can cause finish breaks, recesses, and joint and panel lines. Joint separation can be more visible on mitered doors. Joint lines and variations are common attributes of painted finishes and will not be considered sufficient reasons for product replacement. Joint Lines: Expansion and contraction in doors and face frames can cause visible lines at the joints. The finish will still protect the surface and the structural integrity of the joint will not be affected. An open joint line is not considered a defect.

I find the uniqueness of those variations desirable and agree not to hold Wellborn Forest Products, nor my Americana Capital Series dealer (whose name appears below) responsible in the event that I find those variations to be less than desirable than I had expected.

For further explanation of finish and wood species variation, refer to the Finish Selections.

CABINET CARE AND CLEANING

Wellborn Forest Products meet or exceed Kitchen Cabinet Manufacturer Association (KCMA) standards for resistance to stains and surface damage that can be caused by common household chemicals. The finish protects the wood and enhances its natural beauty. Please follow these simple special care and maintenance guidelines which will allow you to enjoy your cabinets for many years to come.

Cabinet Interiors

- Wipe with a clean, soft, damp cloth and dry immediately. Never use kitchen cloths or sponges that might have detergent or grease on them, or embedded abrasives.
- To remove food residue or grease, use any common dish washing liquid (not detergent) or solution of mild soap and water. Wipe with a clean damp cloth. Dry thoroughly. If a spill occurs, clean and dry immediately. Left unattended, a spill can soak through the laminate or wood surface and cause damage.

Cabinet Exteriors, Stained and Painted

Your cabinets have been finished with a coating that exhibits excellent resistance to foods, beverages and household agents typically found in the kitchen or bath. However, from time to time, your cabinets will need regular cleaning and care.

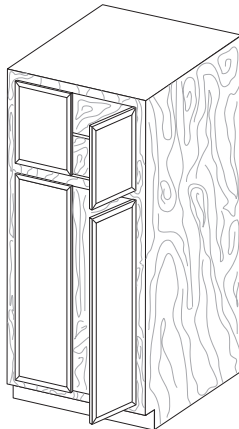

- Clean at least once a month to protect the wood by wiping the surface with a clean, damp cloth, then dry immediately. Do not use a dishcloth for cleaning. It could contain remnants of grease or detergents. **Never use soap pads, steel wool, or cleaners that contain bleach, ammonia or abrasives.** These agents may cause discoloration, marring or dulling of the finish. Do not wax or polish cabinet surfaces. Wax build-up will leave a residue that is difficult to remove. Polishes containing silicone should not be used. Products such as Murphy's Oil Soap contain no wax, petroleum or silicones.
- Excess moisture can damage any cabinet finish. Areas near the sink, range, dishwasher, oven and baseboards are most susceptible. With all cabinets, take a little extra care on bottom edges of base cabinets and base cabinet doors where invisible moisture often collects. Keep these surfaces dry.
- Avoid draping damp cloths or dish towels over the cabinet doors. Over a period of time, this moisture could cause permanent damage to your cabinet finish.

Cabinet Environment

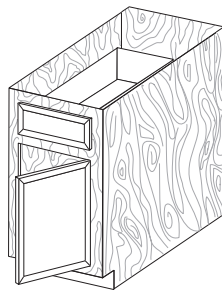

- Routine cleaning will help prevent long term damage from smoke and grease. They should be avoided because they can form a hard film over time, dulling the finish.
- When possible, keep cabinets out of direct sunlight or close curtains during the sunniest part of the day. Direct sunlight will cause cabinets to lighten or darken over time.
- Try to avoid exposing your cabinets to very hot and cold environments. Extremes in temperature and moisture can cause wood to expand and contract, eventually damaging the finish.

When ordering a cabinet with a custom modification, please specify custom modification code on order form. Each modification will be priced accordingly. Requests for non-published modifications may be treated as a Custom Order which will require feasibility, pricing and leadtime review and approval. Please check with your account services representative before placing your order.

Three Year Limited Warranty

Wellborn Forest Products Inc. warrants its products to the original consumer purchaser to be free from defects in material and workmanship under normal residential use for a period of three years of the original consumer purchaser. This warranty is non-transferable.

During this warranty period, Wellborn Forest Products will repair or replace, at our discretion, any cabinet or its component which proves to be defective in material and/or workmanship under normal installation, use and service. **This warranty is limited to the replacement of defective parts and does not include service, labor, or transportation charges related to the removal or installation of defective parts, regardless of whether work was performed by a contractor, Service Company or yourself. In addition, this warranty does not include labor or damage related to improper installation, storage, misuse or neglect.**

This warranty shall not apply to Americana Capital Series Cabinetry or parts that have been subjected to alteration, modification, accident, damage in transit, abnormal use, extreme temperature, moisture levels, or abrasive cleaning chemicals. Cabinet integrity is limited to the Kitchen Cabinet Manufacturers Association testing and certification standards which comply with the American National Standards Institute #A161.1-2000.

This warranty does not apply to any products used or installed in conjunction with Americana Capital Series Cabinets such as plumbing fixtures, counter tops, or appliances. Use of Americana Capital Series Cabinetry or parts contrary to instructions furnished by Wellborn Forest Products will void this warranty.

All claims for defective products must be submitted, in writing, to the Americana Capital Series dealer from whom you purchased this product, detailing the specific problem. Proof of purchase (a copy of the original invoice or dated sales receipt from an Americana Capital Series dealer) is required. Warranty claims must be initially made through your Americana Capital Series dealer. The Americana Capital Series dealer will present the warranty claims to Wellborn Forest Products. Wellborn Forest Products reserves the right to inspect the claimed defective cabinets to require that the replacements will be invoiced upon shipment and credit issued upon the return and inspection of defective product. If you need further assistance, please contact:

Wellborn Forest Products Inc.; Account Services/Warranty Claim; 2212 Airport Blvd.; Alexander City, AL 35010

Special considerations:

- a.) Doors that are warped 1/4" or less must be allowed to hang through two (2) season (ex. Spring, Summer) before replacement will be made. Typically, the door will return to its normal flat position after conditioning to its environment. Prior to requesting a replacement, please be sure that the problem is not an installation deficiency.
- b.) Finish deviations must be inspected by an authorized Wellborn Forest Products representative. Determination will be made following the inspection whether to repair in the field or to return the product to the factory for refinishing or replacement. No field repair may be made without approval from Wellborn Forest Products.
- c.) Stain variations: Since no two trees are the same, wood is a unique material with natural variations in grain, texture, and color. These variations may also cause considerable differences between old samples and new cabinets. Please Note: Newly produced cabinets will never be the same color as aged samples or cabinets.
- d.) Mitered doors: Mitered doors allow a .012" joint gap 1" from inside bead. Mitered doors are not warranted against joint separations that occur as a result of high humidity or moisture conditions. Painted finishes are not recommended on mitered designs.
- e.) Veneered panels: Veneered panel doors are not guaranteed to match solid wood framing on the same door in either the raw or finished state. Veneers will absorb stain differently than solid wood. The mismatch of solid and veneers is not considered defective.
- f.) Some replacement parts are subject to availability and may differ from those originally supplied as part of our ongoing product development process.

No dealer or agent of Wellborn Forest Products has any authority to change or enlarge the above warranty or Wellborn Forest Products' responsibility.

THE WARRANTY STATEMENTS CONTAINED IN THIS LIMITED WARRANTY SET FORTH THE ONLY EXPRESS WARRANTIES EXTENDED BY WELLBORN FOREST PRODUCTS FOR THE CABINETS. IN LIEU OF ALL OTHER WARRANTIES, THE PROVISIONS OF THE WARRANTY SHALL CONSTITUTE THE ENTIRE LIABILITY OF WELLBORN FOREST PRODUCTS AND THE PROPERTY OWNER'S EXCLUSIVE REMEDY FOR BREACH OF THE WARRANTY. WELLBORN FOREST PRODUCTS SHALL NOT BE LIABLE TO THE PROPERTY OWNER FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR BREACH OF AN EXPRESS OR IMPLIED WARRANTY ON THE CABINETS.

This warranty became effective February 2016, and covers cabinets ordered on or after February 2016. Cabinets ordered before February 2016, are covered by the warranty in effect at the time of purchase.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.
