For a more dramatic look, enhance your cabinets' features with one of our glaze combinations.

Glaze Combinations

Enrich the look of your new kitchen with our hand applied glazed finishes. Glazed finishes provide an antiquing appearance to any door style and enhance the overall attractiveness of a kitchen. Depending on the stain color chosen, Echelon's four different glaze finishes can dramatically or subtly enhance the exterior and interior profile edges of any door style.

		Maple and Birch Cabinetry Combinations			
					
		Ebony Glaze	Frost Glaze	Pewter Glaze	Taupe Glaze
STAIN FINISHES	 Bordeaux				
	 Café				
	 Crystal*

Sustainable. Durable. Affordable. Great looking.

Sustainability has emerged as an important component in our everyday lives, directly shaping our daily activities and the products we purchase. As a leading manufacturer of high quality wood cabinets, Echelon Cabinetry recognizes the importance of protecting the environment and using resources responsibly.

Sustainability

We are systematically reducing our environmental footprint and providing products and services that enable our customers to reduce their environmental impact as well. Leadership in Energy and Environmental Design (LEED®) is a suite of rating systems for the design, construction, operation and maintenance of green buildings, homes and neighborhoods. Developed by the U.S. Green Building Council (USGBC), LEED® is intended to help implement ways to be environmentally responsible and resource-efficient.

Door styles that qualify for LEED® Credits:

Echelon Cabinetry offers ten door styles in five distinct construction series that qualify for LEED® credits. They are available in all stain finish offerings. Painted finishes are not considered LEED® compliant.

Construction Upgrades

Upgrade Options are not standard and must be purchased individually

Customizing your new kitchen to meet your precise construction requirements such as dovetail drawers, soft-close features and organizational accessories can give your kitchen a personal touch. Tailoring the kitchen to your specific needs creates a distinctive appeal that can be enjoyed for many years to come.

Kitchen Cabinet Manufacturers Association Certified Cabinet

Limited Lifetime and Limited 5 Year Warranty. For details visit www.echeloncabinetry.com

GENTLE-TOUCH SOFT CLOSE HINGE

Heavy duty, high quality steel, concealed 6-way hinge which creates a quiet and effortless closing action. The hinge features a new adjustable switch which allows you to customize the "Gentle-Touch" resistance for any door size. Hinges come factory set at the highest level of resistance. They may be ordered separately for field installation. Made in the USA, the Gentle-Touch Soft Close System offers a proven technology that makes it the first choice among face frame hinge systems.

PULL-OUT SHELF TRAYS AND DELUXE PULL-OUT SHELF TRAYS
Easy access to view and reach all contents.

STAINLESS STEEL TILT-OUT TRAY CABINETS

- High-quality, stainless steel, tilt-out tray
- Heavy-duty, high-quality steel soft-close hinge
- Available factory installed on select sink base cabinets

DOVETAIL DRAWERS

Enhanced appearance, and superior strength. 5/8" thick solid beech hardwood with dovetail joints. Bottoms are nominal 1/4" multi-ply hardwood birch plywood. Full access undermount drawer guide is standard with dovetail drawers.

SOFT-CLOSE / FULL-EXTENSION DRAWERS

Soft-Close helps reduce drawer slamming and bounce back. Full-extension undermount guide opens drawer to provide easy access to all contents. Available with dovetail drawers only.

ALTERED HEIGHT AND DEPTH CABINETRY

For a truly custom look, design your space with cabinets of varied depths and stagger the heights of wall cabinets. This will create visual interest and provide more design options for hard-to-fit spaces.

Echelon Cabinetry Also Offers The Following Construction Series

ADVANTAGE	ALLWOOD	ORIGINS
<p>Wood-based Composite shelves, end panels, back panel, and top/bottom panels.</p> 	<p>Hardwood Plywood shelves, end panels, back panel, and top/bottom panels.</p> <ul style="list-style-type: none"> • Incredible durability and strength from all plywood box construction • Resistance to swelling from water exposure • Easy maintenance and cleaning of interior protected by clear coat sealer finish • Increases value of home with beauty that lasts a lifetime 	<ul style="list-style-type: none"> • Environmental benefits of sustainable, low emitting materials • Utilizes a no added urea-formaldehyde (NAUF), soy based adhesive in the manufacturing process • Available in cherry, maple and plantation hardwood solid wood center panel door styles • Can contribute to LEED credits 

Natural Beauty of Wood

Echelon cabinetry is derived from the inherent qualities/characteristics of wood itself. Trees of the same species, even growing side by side, are affected differently by the climate and elements required for growth. Minerals (nutrients) are absorbed in different ways and at different rates, even within the same tree. These factors combine to create the distinctive beauty of characteristics like:

- Grain pattern variation (very open/wide grain contrasting with very close/tight grain)
- Grain color variation (from even and consistent grain color to varied and quite dramatic)
- Unique markings (such as dark "mineral" streaks and light-colored sap wood)

These variations can be present from cabinet to cabinet and within the same door/drawer front and are not considered defects. Clear or natural wood finishes permit the natural beauty of grain and color tone variations to show through. Opaque finishes provide greater consistency by hiding the natural wood variations.

17-Step Furniture Quality Finish

Consistent quality, long-lasting color, and distinctive wood grain characteristics are your assurance of lasting beauty with Echelon's exclusive 17-step finishing process.

- All surfaces are machine and hand sanded. Then the dust particles are mechanically removed.
-
- Pre-Stains are applied evenly to provide base color uniformity
- Specially formulated stain is hand sprayed. The stained products undergo a slow drying process. Then a chemical resistant sealer is applied.
-
-
- Sealed products are baked to ensure a complete cure throughout. The sealed surfaces are hand sanded with ultra fine sandpaper. Products are then quality inspected for cleanliness and smoothness. Catalyzed Varnish is applied.
-
-
-
- Product backs are sprayed with a conversion finish. Then they are sanded with fine grit sandpaper. All dust particles are mechanically removed. Product backs are then sprayed with a conversion varnish.
-
-
-
-
- Product fronts are sprayed with a conversion finish. Then they are sanded with fine grit sandpaper. Product fronts are then sprayed with a conversion varnish.

Echelon Cabinetry products are certified by the Kitchen Cabinet Manufacturers Association.

NOTICE: The product specifications appearing herein supersede and cancel all previous sheets, supplements and addenda, and represent current manufacturing standards and procedures. Echelon Cabinetry reserves the right to make specification changes for continued product improvement.

For aesthetic considerations the furniture and cabinet industries have made veneer on composite panel substrate the standard method of construction for raised panel-in-frame doors in some wood species. Within the Echelon Cabinetry product line, those species include oak, birch, and maple.

NOTE: Due to printing limitations, color pictures cannot be guaranteed to exactly match the actual cabinet material.

Echelon Cabinetry is part of the Kitchen Cabinet Manufacturers Association (KCMA) and the National Kitchen and Bath Association (NKBA). Echelon Cabinetry carries the ANSI/KCMA A161.1 quality assurance certification.
