Kitchens are a key place for color, where mixing and matching hues and textures can create the ideal living space. While white continues to be very popular, many homeowners are opting for more varied cabinet colors including greys, blues, and greens. Our cabinets are available with numerous stain, paint, and glaze finish options for nearly endless color possibilities.

Shades of Grey

Grey can be either cool or warm. Light, cool shades of grey will set the scene and are perfect to coordinate with bright or white colors. Dark, warm shades of grey add drama and enhanced style to a room when combined with contrasting colors or warm wood tones.

Contemporary kitchens are modern, minimalist and geometric with a focus on clean and open space.

The characteristics usually include horizontal lines, asymmetry and a lack of molding and other ornamentation. Rich woods are often offset by sleek materials like stainless steel, laminate, frosted glass, concrete, chrome and lacquer.

The
MELROSE
HOME

Contemporary

The unadorned style, Avenue, embraces the beauty of the wood, making it both a handsome focal point and a rich backdrop for a variety of room designs. The effect is thoroughly modern but with a down-to-earth warmth.

The vanity's clean, geometric lines and the glass vessel sink enhance the modern feel in this powder room.

Casual Elegance

Chiswick Maple Champagne Chocolate & Island features Java

In this casual but sophisticated kitchen that blends elegance and comfort, the clean-lined Shaker-style cabinetry is balanced by its soft white color with chocolate glaze finish. Glass fronts on wall cabinets further lighten the look.

The
RIPLEY
HOME

The smooth, transitional style of the Bradenton door style offers a classic appeal. Bradenton, available in flat panel or raised panel, is an expression of elegance.

The Cummings HOME

Traditional design strives to make the kitchen feel less like a work space and more like a cozy room in the home. Painted cabinetry speaks to traditional style, often because a color or a finish reflects a home's historical origin.

GLAZES

Glazed finishes accentuate the character of a door. Glazes consist of a contrasting color that is applied over a base stain, then hand-wiped to create hang-up of varying tones in detail areas.

YourColor™

Custom Paint Matching Program

Design your space in a specific color with the Wellborn Forest Products YourColor™ Custom Paint Program.

Wellborn Forest Products now offers Sherwin-Williams paint colors as a finish option. You can specify a color from a Sherwin-Williams Fan Deck, paint swatch, or use the Sherwin-Williams ColorSnap® app to capture the color and matching paint you want. This is a great way to open up the creative possibilities even beyond our 100+ finish options.

Somerset Maple – SW7742 Agate Green

IDENTIFY YOUR PAINT COLOR

Use the ColorSnap® Visualizer app on your computer or smartphone to capture the color of anything and convert it into its corresponding Sherwin-Williams paint color. Try it on photos of your home for added confidence in your selection. Wellborn Forest Products will even make an optional sample door for your review (fee applies).

SELECT YOUR DOOR STYLE AND WOOD SPECIES

Choose the maple or oak door style that fits your decor.

CREATE A STYLE OF YOUR OWN

Once you approve your paint color selection, place your cabinetry order. You will receive your cabinets ready for installation.

GLAZES ON PAINTS

Paint with Glaze - Make your cabinetry uniquely yours with paint finishes that are applied to hardwood, then hand-wiped with glaze to create varying tones of hang-up in the recessed and detailed areas of the door.

HEIRLOOM

Distressed finishes create warmth and a sense of history in your space. Prior to finishing, doors & drawer fronts receive random hand-applied distress marks, worm holes, and sanding on corners and edges. Glaze is then applied to accentuate the carved details of the cabinet door creating a one-of-a-kind "Patina".
