

# Lion**GUARD** Accessories

---

## **LION GUARD PIPE BOOT**

Lion GUARD Pipe Boots are 1”-6” pre-molded EPDM accessory for flashing pipes or stacks protruding from the roof. Pipe Boots come with a 3” flange available in black or white with butyl mastic for installation using Tape Primer. Usual installation requires cutting the boot at one size smaller than the pipe (i.e. 4” stack cut at 3” level) and stretching over the pipe. Pipe clamp required for final step.

---

## **LION GUARD PRIMETER STRIPS**

Lion GUARD Perimeter Strip is a 6” wide .045 reinforced EPDM membrane to be installed under the rubber at the perimeter of roofs or at angle changes greater than 4” in height. Perimeter Strip comes with 3” butyl mastic sealer for installation to EPDM membrane using Tape Primer. Installation around the perimeter using 2” or 3” steel plates attached to the roof deck prior to installation of the membrane. Clean the back of the sheet at the area of contact with the butyl mastic. Carefully pull release paper off the mastic and press into place. Then roll membrane into mastic using steel roller for optimum results.

---

## **LION GUARD DISKS**

Lion GUARD Disks are uncured EPDM membrane available in black or white with butyl mastic sealer die cut into 8” round disks used for flashing corners, as repair patches, or t-patches and anywhere required on EPDM, most TPO and some PVC membranes. Membrane must be cleaned prior to installation using Tape Primer. Use 3” steel roller for final installation step. Be careful to avoid fish mouths or air bubbles.
