

Interior layer is a protective, sturdy base formulated for impact resistance.

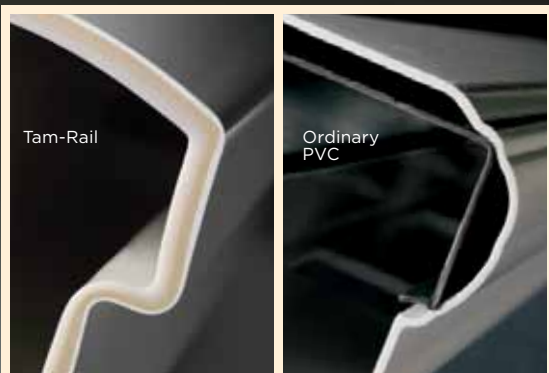

Middle layer is an innovative composite wood and foam core that adds stiffness.

Outer layer is made from strong cap stock for an attractive look that is weather resistant and low maintenance.

No metal inserts in the 6- and 8-foot sections make Tam-Rail light in weight and easier to cut and install.*

25-YEAR
LIMITED WARRANTY
5-YEAR
FULL START PERIOD

Three layers make the difference.

Only Tam-Rail is designed with patented triple-layer construction providing the beauty you want and the strength you need. The Tam-Rail[®] system creates code-approved strength with no metal inserts in the 6- and 8-foot sections.* Compare its triple-layer strength to ordinary PVC railing products and see the difference for yourself.

The Tam-Rail system

- Comes with a 25-year Limited Warranty, including a 5-year Full Start Period**
- Cuts easily and installs quickly
- Is building code approved: ATI CCRR #0118***

*Tam-Rail 10-foot sections feature aluminum stiffeners for long spans.
