## SHELVING SYSTEM

An innovative shelving system that allows hangers to slide continuously and free, which makes garment selection easier.

**Lee Rowan**  
A Huellett Company

The Free Slide Shelving System's modular design works with virtually any closet configuration. Hanging garments move freely along the unique slide bar making clothing selection easier than ever.

**FREE SLIDE®  
SHELVING SYSTEM**

**Flexibility that makes  
installation easy.**

Free Slide Shelving from Lee Rowan is an exclusive, patented design that sheds a whole new light on closet organization. Now, hanging garments

can slide uninterrupted from one end of the closet to the other.

That helps make garment selection convenient and easy.

Free Slide's innovative hardware

parts allow this system to adapt to virtually any size closet area. Corner shelves are available to provide a

continuous, smooth flow of hanging garments... even around 90° corners.

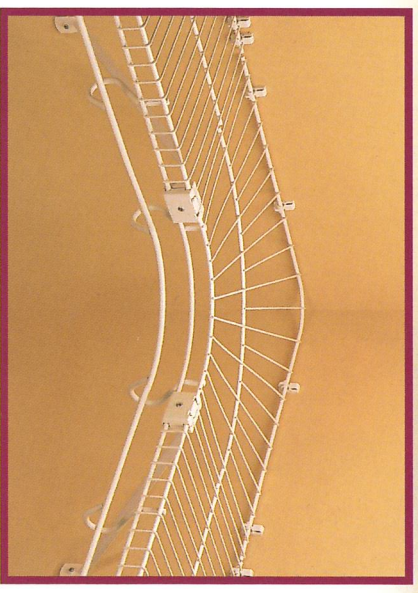

From large walk-in closets to smaller coat closets, Free Slide Shelving is flexible, versatile... and

easy to install. Available in two different shelf widths and a variety

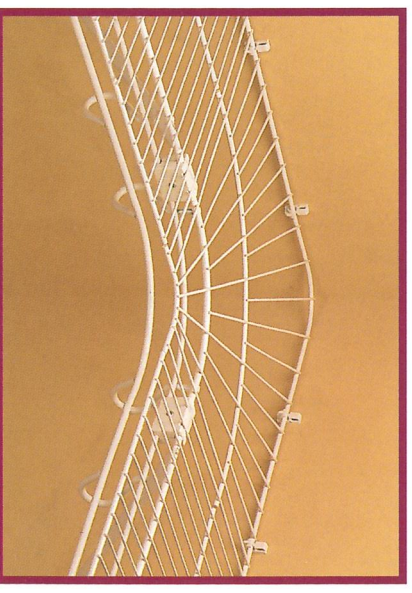

of convenient lengths.

*Unique corner shelves have a contoured radius design to fit securely into 90° corners. Support braces add stability and strength to the overall shelving system.*

*The Free Slide Joiner Plate provides a continuous, smooth flow of hanging garments, even around corners.*

12" wide shelving available in 4', 8' and 12' sections.

16" wide shelving available in 4', 8' and 12' sections.
